## PRODUCT DESCRIPTION

Pro Boswellia Max contains *Boswellia serrata*, an herb traditionally used in Ayurvedic medicine for treating inflammatory disorders. Pro Boswellia Max may help to reduce the pain associated with inflammatory diseases such as osteoarthritis, rheumatoid arthritis, irritable bowel syndrome, and inflammatory bowel diseases such as Crohn's and ulcerative colitis.

Boswellia functions similarly to non-steroidal anti-inflammatory drugs (NSAIDs), however, the boswellic acids in Boswellia are more potent and less toxic. Boswellic acids have been shown useful for balancing inflammation, supporting joint function, reducing pain, and relieving arthritic conditions.

## AOR ADVANTAGE

Unfortunately, Boswellia is an herb that suffers from poor bioavailability and traditionally a dosage of one to three grams was required to achieve a therapeutic effect. With new nano technologies, AOR now delivers an enhanced Boswellia dissolved in oil and emulsified for better absorption; making Pro Boswellia Max much more effective than similar doses of regular Boswellia supplements.
