Methyl B12 5 mg

Helps prevent vitamin B12 deficiency

- Mood
- Pernicious anemia
- Energy/fatigue
- Neurological health
- Detoxification

 Vegan  Non-GMO  Gluten Free

PRODUCT DESCRIPTION

Methylcobalamin is the active coenzyme form of vitamin B12 and is used to help prevent B12 deficiency and pernicious anemia. Additionally, it is helpful for many neurological disorders; it can mend nervous function in patients with Bell's palsy and multiple sclerosis, improve neurological symptoms in Alzheimer's disease, improve nerve response in individuals with Lou Gehrig's disease, and prevent nerve damage in glaucoma patients. Due to its role in the methylation cycle, methylcobalamin is also effective for reducing high homocysteine levels.

AOR ADVANTAGE

Pro Methyl B12 provides 5 mg of methylcobalamin, a bioavailable and active form of B12 in a lozenge, making it simple to take for those who would benefit from supplementation at higher levels.

NPN: 80027283

60 lozenges

Serving Size:

One lozenge

Medicinal Ingredients:

Vitamin B12 (methylcobalamin)

5 mg

Non-medicinal Ingredients:

Microcrystalline cellulose, sodium stearyl fumarate, xylitol, hypromellose, and tapioca syrup.

AOR 34067
