Combines three different forms of vitamin B12

- Vitamin B12 deficiency
- High-risk groups
- Malabsorption issues

-  Absorbable
-  Eco
-  Vegan
-  Non-GMO
-  Gluten Free
-  MyBlueprint™

### PRODUCT DESCRIPTION

Pro Tri B12 is a combination of three independent and active forms of vitamin B12. Methylcobalamin, hydroxocobalamin and adenosylcobalamin are three distinct cobalamin factors, each with their own unique benefits. When taken together, they provide an appropriate dose of bioavailable and active forms of B12 for comprehensive support in replenishing a deficiency.

### AOR ADVANTAGE

Unlike many other sources of vitamin B12 on the market, AOR presents vitamin B12 in its three most active and bioavailable forms. The combination of its two-cofactor forms may make supplementation more efficient and can restore B12 levels faster than with one form alone. Additionally, AOR's ingredients are sourced in Europe and are environmentally certified. Pro Tri B12 is free of harmful additives.

#### NPN: 80084062

60 lozenges

AOR 34412

#### Serving Size:

One lozenge

#### Medicinal Ingredients:

Vitamin B12

- Methylcobalamin (mecobalActive)	5 mg
